Eine Flagge für alle

During LGBTQI+ history month, we learn and share the history of the LGBTQI+ community. There are different flags which represent different groups of the community. Everyone should feel that they are represented, and that they have a place in society.

If you could design a flag to represent different communities, what would it look like?

Design it below and describe the colours in German. (Meine Flagge ist blau, gelb, rosa und schwarz).

You might like to include German words on your flag (Gleichheit= equality, Freiheit= freedom, Liebe= love, Familie= family) Try to explain in English why you've chosen your design and how it represents everyone.
